National Contest Committee
Report on the
2016 National Contest
Columbia, South Carolina
August 3-6, 2016

Submitted August 23, 2016
Eileen Persichetti, Recorder

Overview

The 2016 IPMS/USA National Contest was held during the annual convention in Columbia, South Carolina, on August 3-6, 2016. There were 1,967 total contest entries in 201 categories. There were seven additional awards presented for the host chapter's themes, three awards for special interest areas, and twelve awards for the best-in-class and overall show awards.

Approximately 150 judges participated in the contest judging, led by the NCC Class Head Judges:

- Rick Jackson – Juniors
- Bill Devins – Aircraft
- Dave Kahn – Military Vehicles
- Lindy Woody – Figures
- Ed Grune – Ships
- John "Doc" Maydak – Automotive
- Manny Gutsche – Space and Science Fiction Vehicles
- Phil Perry – Dioramas and Miscellaneous
- Mark Persichetti – Chief Judge and NCC Chair

NCC Judges Seminars

The NCC conducts a 90-minute seminar for anyone interested in participating or learning more about the judging process. OJT (on-the-job training) judges are welcomed to join the judging process. Typically, only one OJT is placed on a judging team, but is encouraged and allowed to participate fully in the decision-making process of the judging team. This year, over 50 individuals attended the "What Judges Look For" seminar, held on Thursday, August 4.

In addition to this seminar, a one-hour judges' meeting was held immediately prior to the start of judging on Friday, August 5. The purpose of this annual session is to reiterate the judging standards and ethics expected of all judges, review the recording process, and introduce the Class Head Judges. 150 judges were in attendance for this annual meeting and participated in judging.

Judging began at approximately 7:00 pm, and concluded with the final Judges' Grand Award decision made by midnight. The recording, photography, and awards presentation efforts continued throughout Friday night and all day Saturday in preparation for the Saturday evening presentation.

The efficiency of the judging process and duration continues to improve each year, thanks to the hard work and efforts of the Class Head Judges and their support teams in preparing their preliminary decisions and placement of models into split categories. This preparation has greatly reduced the time required for the judging process.

NCC Judging Certification

The NCC recognizes seniority in judging by awarding certificates for 3, 10, and 20 years of judging service – a program which was initiated by Aris Pappas in 1990. This seniority is determined by the judges signing into a log book for each year that they participate in judging, including their first OJT (on-the-job trainee) judging year. New certificates were presented to the following:
