## Overview

The 2019 IPMS/USA National Contest was held during the annual convention in Chattanooga, Tennessee, on August 7-10, 2019. There were 3,112 total contest entries, making it the largest contest since 1986. Entries were in 201 categories, receiving 596 awards for first, second, and third place within each category. There were five additional awards presented for the host chapter's themes, five awards for special interest areas, and twelve awards for the best-in-class and overall show awards.

257 judges participated in the contest judging, led by the NCC Class Head Judges:

- Rick Jackson – Juniors
- Bill Devins – Aircraft
- Dave Kahn – Military Vehicles
- Bill McAllister – Figures
- Ed Grune – Ships
- John “Doc” Maydak – Automotive
- Manny Gutsche – Space and Science Fiction Vehicles
- Phil Perry – Dioramas and Miscellaneous
- Mark Persichetti – Chief Judge and NCC Chair

## NCC Judges Seminars

The NCC conducted the annual seminar, “What Judges Look For,” on Thursday, August 8, with approximately 35 attendees. This seminar highlighted errors in construction and finishing which might result in an entry not receiving an award; such as misalignment of wings, wheels, unpainted surfaces, etc.

In addition, a one-hour judges’ meeting was held immediately prior to the start of the judging process on Friday, August 9. The purpose of this annual session was to reiterate the judging standards and ethics expected of all judges, to review the recording procedures, and to introduce the Class Head Judges.

Judging began at 7:00 pm and concluded with the final Judges’ Grand Award decision made by 12:30 am. The recording, photography, and awards presentation efforts continued throughout Friday night and all-day Saturday in preparation for the Saturday evening presentation.

The efficiency of the judging process continues to improve each year, thanks to the hard work and efforts of the Class Head Judges and their support teams in preparing their preliminary decisions on category splits and placement of models into split categories. This preparation has greatly reduced the time required for the judging process.

Additionally, the Chattanooga convention team designed and implemented a new convention registration system utilizing web-based tools and Chromebook tablets. This enabled a more streamlined data entry process and easy access to convention registration data for final verification of convention registrant data.

## NCC Judge Certification

The judge certification program was initiated in 1990 (30 years ago) by Aris Pappas. Participation and seniority are determined by having the judges sign into a logbook for each year that they participate in judging. On-the-job trainee (OJT) status includes judges in their first through third years of participation. Senior judges are awarded certificates of recognition, along with pins, for 3-, 10-, 20-, and (soon) 30-years of participation. While many of the judges participated in contest judging from the inaugural contest in 1964 through 1989, no formal records were maintained for this participation; the current certification program now allows IPMS to recognize service from 1990 forward.

Three- and 10-year pins have been provided to judges in prior years. New 20-year and 30-year pins have been designed; and prior 20-year judges were provided with the new 20-year pin in 2018. It is anticipated that 30-year recognition will be realized at the 2020 convention.

There are 1,115 judges in the national judges' roster maintained by the Chief Judge who have participated at least once since 1990. Of those, 641 judges have a "current" status to indicate they have participated in at least one contest within the past 10 years. Of the current judges, 403 (63%) have 5 or fewer years of service; 101 (16%) have 6-10 years of service; and 137 (21%) have more than 10 years of service.

Including new OJT judges, a total of 257 judges participated in the judging this year.

The NCC recognized seniority in judging by awarding certificates for 3, 10, and 20 years of judging service. This year, newly certified senior judges were presented certificates and pins, as follows:

\*Rank refers to the overall size of the contest. For example, Chattanooga (2019) is ranked #1 as the largest contest, based on the count of contest entries.

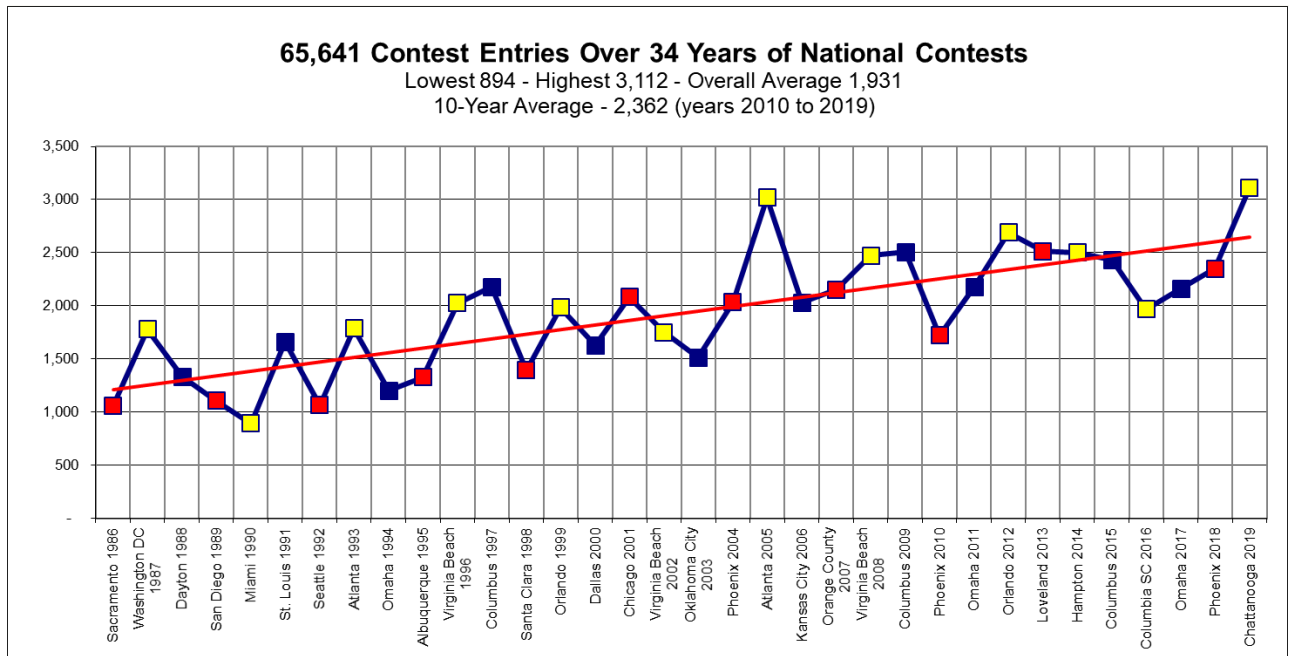

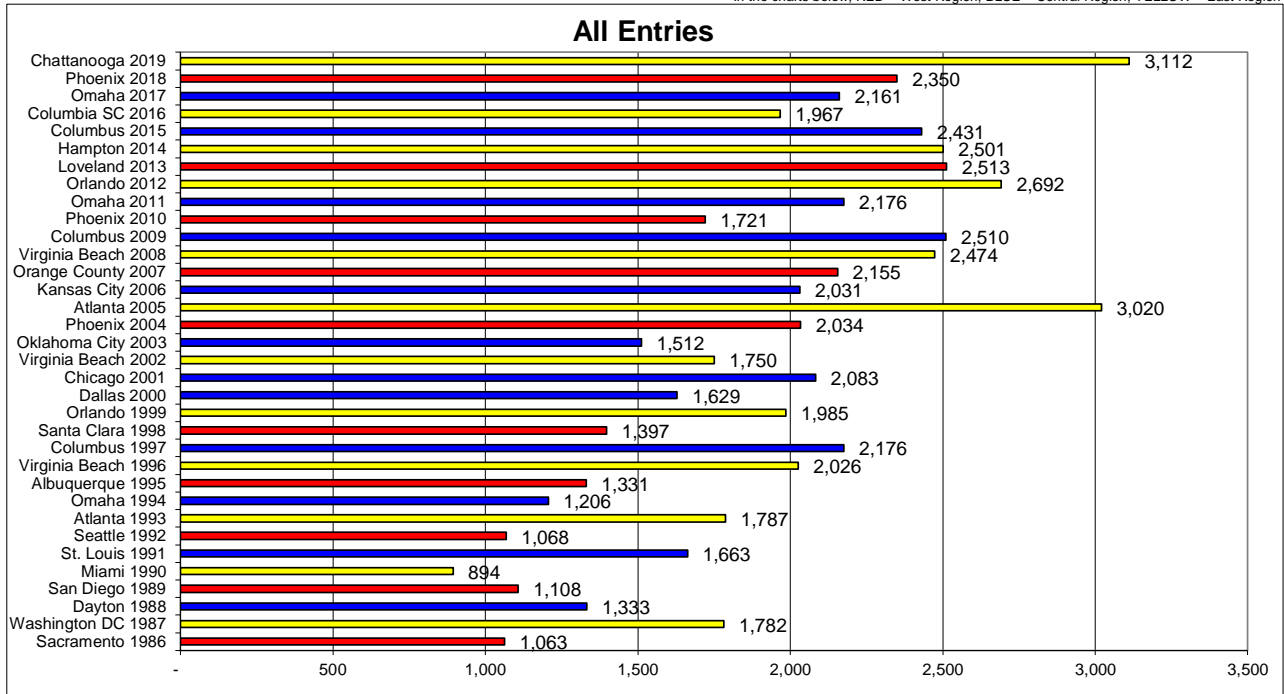

\*\*Entrant count may - or may not - include walk-in visitors. It is the number announced at the awards ceremony, and may not be limited to just contest entrants.

## Analysis of Judging Corps

## 2019 Count of Entries by Category

Following is the detailed count of entries by category. A maximum of 199 awards packages for categories and splits were approved by the NCC, which includes five “unplanned” splits. A total of 201 packages were awarded. Three categories/splits were not used (had no entries); and 28 new splits were identified. The host chapter provided an additional 7 awards packages above the maximum number approved by the NCC; 2 of these packages were used in the new splits identified. The management of specific splits is discussed below this table.

## 2019 Management of Split Categories

Prior to each annual contest, the NCC defines categories and potential splits, which results in a total number of awards packages to be purchased by the convention host chapter. Typically, splits are done to divide a category with a large number of entries into sub-categories of like-themed entries for more equitable competition based on the type, size, or theme of the entries. Due to the fluctuation of both the number of entries and the types of entries, flexibility is needed to adjust to each year's contest; and therefore, splits are used, not used, or moved where necessary and named at the discretion of the NCC.

Splits may be named with an expected theme or variant. Named splits are used the same as other categories, i.e., even if the entry count is low, awards are placed. If there are no entries in a named category or split, the awards for that category or split may be used elsewhere.

Splits may be unnamed and defined as a "pre-planned" split or as an "estimated additional" split within Classes. As has been done for several years, an additional five unnamed splits were included in the total awards package count to be used if needed in any class. Unnamed splits are not required to be used and are at the discretion of the NCC.

If (and only if) the host chapter has purchased additional awards packages can additional splits be awarded beyond the NCC approved maximum count. Exceeding the total awards packages is not recommended nor required of the host chapter. This year, the Chattanooga host chapter provided seven award packages above the NCC category maximum count, of which two were used.

### Unused Categories or Splits (3)

Category 30 – Junior Figures, Pre-Teen (no entries)

Category 113B – Aircraft, Medium Prop Aircraft, 1/48 (3<sup>rd</sup> consecutive year this split was not used)

Category 130 – Aircraft, Large Jet, 1/72, Out-of-the-Box (no entries)

### New Split Categories (28)

Category 107 – Aircraft, Small Aircraft, Single Engine or Prop, 1/48 (5 planned splits; 1 new split added)

161 entries, split into USAAF and USAF Markings (27), Navy (25), Other Commonwealth Markings (24), Bf-109s (33), Other German and Japanese (25), and Other (27)
